William Kirk Andersen

Ambitious DTU student with a drive for growth and innovation

PROFILE

I am an enthusiastic student currently involved in studying Artificial Intelligence on my 6th semester. Coursework on A.I. has empowered me with a number of techniques in machine learning, data analysis, and programming, hence laying a strong technical foundation for further application of skills in domains related to A.I..

I have a number of years of customer service experience, which has developed my communication skills, compassion, and flexibility – qualities that are useful both in dealing with customers and in technological work. I revel in challenges and seek opportunities for development and growth in every scenario, motivated by an enthusiasm for personal and professional development.

EDUCATION

MSc. Human-Centered Artificial Intelligence	September 2025	June 2027
--	----------------	-----------

Technical University of Denmark • Master's degree

Expected continuation of studies

BSc. Artificial Intelligence and Data	September 2022 - June 2025
--	----------------------------

Technical University of Denmark • Bachelor's degree

I am studying various machine learning techniques but have also gained a solid polytechnical foundation through my years of study, including coursework in algorithms, data structures, and database systems. I have worked on projects involving image classification, using techniques like neural networks and regression models.

STX	September 2017 - June 2020
------------	----------------------------

Birkerød Gymnasium • Upper Secondary Education

Math A, Physics A, Chemistry B

PORTFOLIO

WORK EXPERIENCE

E-commerce assistant

January 2022 - June 2023

MakesYouLocal

As a customer service representative, I interacted with customers through phone, email, and chat. I was responsible for completing daily tasks related to back-end procedures, as well as responding to reviews on social media and Trustpilot.

Royal Guard

April 2021 - November 2021

The Danish Royal Guards • Full-time

Completed 8 months of military service in the Danish Royal Guards, consisting of 4 months of training in confrontation handling and guarding techniques followed by 4 months of guarding the royal palaces.

Salesassistant

June 2016 - April 2022

Føtex Birkerød

Started as a "bottle boy", and then moved to the cash-register. After this I was promoted to primarily standing in the kiosk and handling customer service. Responsible for both opening and closing on different shifts.

VOLUNTEER WORK

Coordinator of the Bachelor study start

November
2023

February
-
2025

Polyteknisk Forening & DTU

As a coordinator of the Bachelor Studystart known as KABS in Danish, I have been part of the hiring process in the new student tutors known as "Vectors" at DTU. I was also a part of making sure that the vectors received education in firstaid and conflict management and other important areas which could be relevant for the vectors. Furthermore, I have had the responsibility for coordinating the intro week and the cabin trip for the new students.

Student tutor

Februar 2023 - Februar 2024

Polyteknisk Forening & DTU

As a student tutor known as a "Vector" at DTU, I helped with facilitating the rustrip and cabin trip for the new students at DTU. I also held weekly meetings with the new students to give them information about starting at DTU and answering any questions they might have.
